### PROFILE

Morsy is International Environmental and Marine Services (IEMS) "centre manager", based in Sharm Oil Spill Response Centre. He started his professional career 8 years ago in oil spill response and more than which has been complementary to his 15 years in management system(s) development.

Morsy is an expert in the development of management systems in accordance to International Standards Organization. He often consults to various classification societies such as DNV,TUV, BV etc.

The certified management systems of IEMS are overseen by Morsy and his team, he has kept IEMS system up to date, compliant and practical.

Morsy is not only a team player he is a team developer which is evidenced through his successful Management of the team in the largest Tier 2 Oil Spill Response centre in the region.

### EXPERIENCE

Morsy is a decorated mechanical engineer in the Egyptian Navy for 25 years. During his naval career He was responsible for the maintenance and repair for Flight support Vehicles and related mechanical, pneumatic, hydraulic equipment as well as many other electric equipment and electronic systems. He progressed through the ranks within the planning and operations section, which culminated in Morsy being appointed as commander of King Mariot base, in addition as a high ranking naval officer he would manage and instruct visitors to the Egyptian Naval College and High Institute of Naval Studies.

Morsy retired from the Navy to embark on a career as a consultant with private sector companies. Through his management training he achieved the following;

- Lead Auditor with BV "Bureau Veritas" Certification.
- Lead Auditor with URS, FQC, TUV and TUO "Certification Bodies".
- Lead assessor with GIC "Guardian Independent Certification".
- Lead assessor with OSS.

Morsy has spent in total 5 years managing the sharm centre, 3 with IEMS and 2 with the previous management company. During his time with IEMS he has lead the response team during several oil spill incidents as a center manager and also as on scene commander for incidents of national significance.

The combined naval and response centre management experience of Morsy allows Morsy to take any role with the Emergency Response Team (ERT) and the Emergency Management Team (EMT) which includes on scene commander and Incident commander.
