Accident Prevention Programme (APP)

Course Overview

Most workplace illnesses and injuries are not due to “accidents”. The term accident implies that the incident could not have been prevented, that it was no one’s fault. APP aims to:

- Save lives
- Save money

The Creative APP Training involves development of prevention technique designed to manage, eliminate, or reduce risk to an acceptable level.

Who should attend?

This programme is appropriate for mid-level HSE engineers and project managers, as well as senior project managers, senior technical specialists, and lower-level engineers.

Topics covered

- Safe system of work
- Accident prevention process
